

Multi coloured spanner sets for easy identification

Buck & Hickman has launched its Roebuck multi coloured combination spanners for fast and easy identification. Each size in the ten piece metric combination set has a different colour.

The 10 piece set includes a 6, 8, 10, 11, 12, 13, 14, 15, 17 and 19mm spanner. Forged from heat treated chrome vanadium steel, the spanners are chrome plated for resistance. Polished with a mirror finish for an aesthetically pleasing appearance, each spanner comes with a lifetime guarantee.

Commenting on Roebuck's range of multi coloured combination spanners, Kevin Thompson, product manager: "The idea behind the set is very simple, but it solves a common problem. There is nothing more annoying than not being able to find the right size spanner. These new colour coded spanner make the job easy, especially when you've got a lot of different sizes in a toolbox."

The Roebuck brand is exclusive to Buck & Hickman and offers a comprehensive range of over 23,000 tools, maintenance and health and safety products. Roebuck products are designed specifically for professional users working in demanding industrial environments.

Roebuck is unique in its combination of range, industrial quality and outstanding value for money. It offers a proven and effective solution for customers who need to reduce their overall purchasing costs but without compromising on quality or performance.
